Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary

Application No.

09/982,353

Applicant(s)

DAY, MARK

Examiner

Joseph T. Phan

Art Unit

2645

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 March 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-18 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-18 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
- ☐ Certified copies of the priority documents have been received.
 - ☐ Certified copies of the priority documents have been received in Application No. _____.
 - ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2 and 11 rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 2 and 11 recites "...over the time period", It is unclear and confusing as to which time period this phrase is referring to as claims 1 and 10 line 4 recites "...over a period of time" and claims 2 and 11 line 2 recites a plural "one of more discrete time periods". Therefore claims 2 and 11 are indefinite and correction and clarification is needed.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claims 1-18 rejected under 35 U.S.C. 102(e) as being anticipated by Morin et al., Patent #6584312.

Regarding claims 1 and 10, Morin teaches a method and program code for informing remote clients as to the presence status of a device, the method comprising: recording a presence status of a first device to create an observed presence profile that comprises information regarding the presence status of the device over a period of time(*col.3 lines 10-20; "over a period of time" is broad enough to read the current location information on it*).

comparing the observed presence profile with one or more model presence profiles that represent an approximation of the presence status of the device to compute a closest matching model presence profile and transmitting information representing the closest matching model presence profile to one or more devices(*col.3 lines 46-58 and col.4 lines 46-62*).

Regarding claims 2 and 11, Morin teaches the method and program code of claims 1 and 10, the method comprising: dividing a block of time into one or more discrete time periods, recording the first device's presence status over the time period; and creating an observed presence profile from the first device's recorded presence status(*col.3 lines 46-58 and col.4 lines 46-62*).

Regarding claims 3 and 12, Morin teaches the method and program code of claims 1 and 10 comprising comparing the observed presence profile with the model presence profiles when requested by the one or more devices(*col.3 lines 46-58 and col.4 lines 46-62*).

Regarding claims 4 and 13, Morin teaches the method and program code of

Art Unit: 2645

claims 1 and 10 comprising comparing the observed presence profile with the model presence profiles according to a schedule (*col.3 lines 46-58 and col.4 lines 46-62*).

Regarding claims 5 and 14, Morin teaches the method and program code of claims 1 and 10 wherein the step of transmitting is executed when requested by the one or more devices(*col.3 lines 46-58 and col.4 lines 46-62*).

Regarding claims 6 and 15, Morin teaches the method and program code of claims 1 and 10 wherein the step of transmitting is executed according to a schedule(*col.3 lines 46-58 and col.4 lines 46-62*).

Regarding claims 7 and 16, Morin teaches the method and program code of claims 1 and 10 wherein the step of transmitting information comprises transmitting a status code representing the closest matching model presence profile(*col.3 lines 46-58 and col.4 lines 46-62*).

Regarding claims 8-9 and 17-18, Morin teaches the method and program code of claims 1 and 10 comprising applying a pattern detection algorithm(Fast Fourier Transformation) to compare the observed presence profile with one or more model profiles to compute the closest matching model presence profile(*col.3 lines 46-58 and col.4 lines 46-62*).

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joseph T. Phan whose telephone number is (571) 272-7544. The examiner can normally be reached on M-TH 9:00-6:30, in every other Friday.

Art Unit: 2645

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Fan Tsang can be reached on (571) 272-7547. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
